

Anatolia Hides

Material overview

Turkish leather / European supply

Zeytinburnu, Istanbul · Switzerland warehouse support

A considered material partner

Since 1999, Anatolia Hides has connected Istanbul leather craft with product teams and makers across Europe. We work with qualified B2B enquiries for footwear, leather goods, furniture and interior applications.

There are no prices or online orders in this catalogue. Every programme starts with a material brief, a practical sample conversation and a clear next step.

Material library

Material direction	Character	Typical applications
Full grain	Natural depth, visible grain, considered finishing	Footwear, bags, premium goods
Top grain	Refined consistency and controlled surface	Footwear, furniture, leather goods
Suede	Soft nap, colour depth and quiet tactility	Footwear, apparel, accessories
Split leather	Versatile base for selected finish directions	Interiors, goods, development programmes

Development brief

A useful enquiry can include:

- Leather type and preferred thickness

- Target delivery country
- Application and programme size
- Colour or finish direction
- Required sample timing
- Company and contact details
